Flood maps show the extent to which areas are at risk for flooding and help determine flood insurance and building requirements.

At each open house, residents and property owners will have the opportunity to view preliminary coastal maps, learn more about the risk of flooding, and ask questions about the new maps. Residents will also have the opportunity to meet one-on-one with specialists to discuss flood insurance, engineering, building permits, and more.

Home and business owners, renters, real estate agents, mortgage lenders, surveyors, and insurance agents are encouraged to attend.
